

K-LOVE is our families very favorite radio station. My children's friends ask for K-LOVE when they get into my car. When I get into my friends' cars K-LOVE is on in their car also. A huge hole would be created if K-LOVE were to be taken from my area. I can turn K-LOVE on at any time and know the kids can listen to an song and listen to any D.J.'s comments without worry. I cannot say that about any other radio station except possibly KOMA. Please do not allow LPFM to take priority over our current FM translator services.
